

Combined Logo (horizontal)

Here it is again—our logo. Our logo is the most visible element of our identity—a universal signature across all e-print & e-banner communications. It's a guarantee of quality that unites our diverse products and services.

We use the same version in print, on screen, and on the side of our buildings. It's simple. Easy to understand.

The logo is made up of two elements: the logotype and background. While it is a simple logo, we must treat it nicely. The following pages cover the correct usage to ensure the logo always looks its best.

Combined Logo (vertical)

If it's impossible to use the Primary Logotype for some reason, you have the option of using the Vertical logotype. It's still a good way of showing off the e-print & e-banner brand, so don't you worry!

Exclusion Zone (horizontal)

To ensure that our signature versions are clearly visible in all applications, surround them with sufficient clear space—free of type, graphics, and other elements that might cause visual clutter—to maximize the recognition and impact of our identity.

To ensure the integrity and legibility of the logo lock-ups, the area directly surrounding them should be protected.

We prefer our logos to always be center aligned with website for horizontal logo.

Exclusion Zone (vertical)

To ensure that our signature versions are clearly visible in all applications, surround them with sufficient clear space—free of type, graphics, and other elements that might cause visual clutter—to maximize the recognition and impact of our identity.

To ensure the integrity and legibility of the logo lock-ups, the area directly surrounding them should be protected.

We prefer our logos to always be center aligned with Align centre for vertical logo.

Logo Sizes

9
